*'An outstanding quarter was closed due to the enhanced demand of export and domestic document cards and to the delivery of election ballots. Flexibly adapted to the enhanced demand both the professionals and the machineries of the Printing Company achieved outstanding performance in all production area. We proved again that we are able to operate our capacity efficiently even at peak-time as well. Export sales are growing further efficiently supported by the developments of the Document Security Laboratory, penta-fluorescent ink is being the newest of them, which might be successful in the international market as well, due to its unicity, and efficient possibility of being used and controlled.'* – commented **Gábor Zsámboki, CEO of ANY Security Printing Company PLC**
