# Security ANYtime and ANYwhere

## Products and references

ANY Security Printing Company PLC (former State Printing Company) was founded in 1851. The Company is currently one of the biggest security printing companies in Hungary and the leading one in the CEE region. Thanks to the portfolio developments during the last years, the Company offers complex data logistic solutions in the fields of personal identification, product verification and business form management. Through its developments focusing on document safety and mobile technology, it offers products and solutions such as e-ID or the most up-to-date mobile

wallet. Its international certificates assure the highest security in the fields of document and card production, personalisation and bulk transactional printing. Besides the national subsidiaries – Gyomai Kner Nyomda Zrt., Specimen Zrt., Techno-Progress Kft., ANYpay Fizetési Megoldások Zrt. – the Corporation has subsidiaries in Slovakia (Slovak Direct, spol. s. r. o.) while having joint ventures in Bulgaria (Direct Services o.o.d.), in Moldova (Tipo Direct Serv s.r.l.) and in Romania (Zipper Services s.r.l. and Zipper Data s.r.l.).

**Documents of value – food vouchers**

---

The Company is one of the biggest document printing and personalising companies in Hungary. In the Document Security Laboratory, which was established in 1999, our experts work on developments of the most modern document security products and solutions that are applied to different document security, person and product identification products. ANY supplies special ink cartridges and toners for ink-jet and laser printers with security elements that were developed in-house. Paper based documents, like motor vehicle registration forms, birth certificates and numerous magisterial documents are filled-in at Hungarian document offices using the above mentioned inks. Document security developments are applied

to other products as well. The quality control of Hungarian excise goods is ensured by a high level of excise and tax stamps that have been produced by the consortium led by the Company for more than 18 years. Vehicles in Hungary are identified with the help of sets of validity stickers placed on the number plate and the registration certificate supplied by our Company. ANY Security Printing Company PLC has unparalleled references in the field of production for the most different vouchers that have been supplied to 7 countries for several years. Mobile document inspection devices – developed by the Company - can be applied efficiently in quality assurance and lifecycle-tracking of documents, products and labels.

We provide high quality service for the development of products and services connected to data logistics and business form management. We provide transactional mailing service for banks, insurance companies and public utilities in Hungary, Romania and Bulgaria. Appropriate handling of electronic databases, digitalised processes and personal data enable complex solutions that provide a full range of services from printing to personalisation and enveloping to mailing in the field of business correspondence. Our special products are lottery forms, election ballots and different documents of values ranging from food vouchers to postal stamps.

# Cards

As a leader among the region's card producers, with manufacturing experience of more than 500 million cards, we produce identity and payment cards for domestic and international markets. Since the beginning of the Hungarian document reform, ANY Security Printing Company and its consortium partner have been producing and personalising domestic card-based identity documents such as vehicle registration cards and driving licences through laser engraving. Besides the personalisation of Hungarian passports, cur-

rently we personalise and mail 50 types of documents, providing a full range of logistic services. As well as contact and contactless e-documents, MasterCard and Visa chip bank cards, we offer a wide variety of card solutions from production, personalisation to mailing. Our card products include solutions for city cards, access cards and other plastic cards of unconventional materials, forms and creative surfaces.

## Mobile payment

Since the foundation of the Printing House, we have printed billions of products over the past, over the last one and the half centuries – securely. Leaning on the internationally certified documents, bankcard production technology and our experience, we have entered the market as an independent TSM service provider. Due to NFC technology, mobile phones will be used as bankcards, loyalty cards or even as transport cards in a way that ANY Security Printing Company will transfer card applications to mobile devices securely.
