mini card

small, practical,
it can be hanged
on a key chain

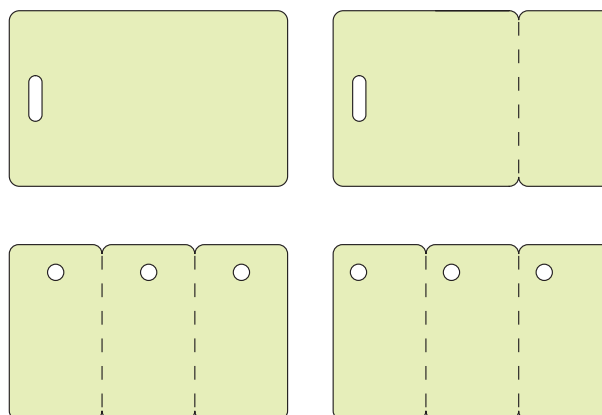

Due to continuous developments ANY Security Printing Company PLC is able to prepare unique cards with unconventional appearance and touch, using special printing technologies. Our Company is ready to manufacture cards with glossy or matt surface, translucent card bodies printed with special or distinctive gold inks, or to produce cards with unique photos..

We are able to punch and/or groove ISO 7810 standard PVC cards in arbitrary sizes as well.

IDEAS FOR APPLICATION OF UNIQUE, DIE-CUT CARDS

- **Gift card:** it can be hanged at the point of sale without any inserts and it can be charged with the amount of choice.
- **Entrance card in bath, fitness centre, keycard in hotel:** besides entrance functions it can be applied as electronic wallets as well.
- **Mini card:** it can be hanged on key chain as a family or partner card; family members can use it for point collection, discounts.
- Besides production and personalisation of cards we provide full logistic services; the cards can be mailed with colourful and customized **TransPromo** documents to the recipient.
- Besides the most common die-cutting formats we are ready to carry **any creative idea** into execution.

Different variations of die-cutting offer numerous possibilities

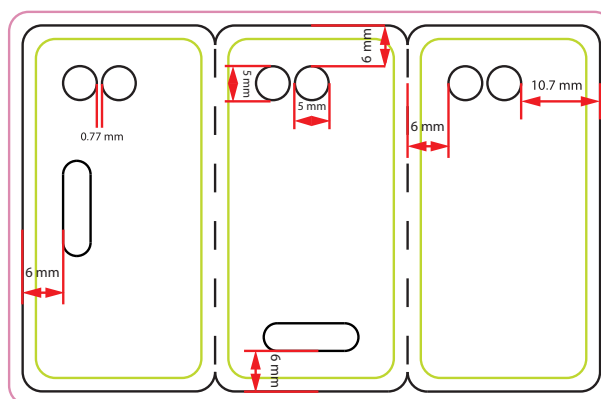

Some popular die-cutting schemes

TECHNICAL SPECIFICATION

- Bleed area of blank card: 89.6×58 mm
- Die-cut size of blank card: 85.6×54 mm
- Die-cut size of 1/3 card: 28.53×54 mm
- Inside margin of 1/3 card: 24.53×50 mm
