*“One can tell nowadays that – due to our Romanian, Bulgarian and Slovakian subsidiaries - our export market activity that we started 10 years ago significantly supports the stable operation of the Printing Company. The export sales ratio reached 32%; the Romanian and Bulgarian form personalisation capacity, which is close to the domestic extent, have an important role in this figure. In this quarter the amount of sales has been increased also by printing election ballots and logistic activities connected to them for parliamentary election, which demanded an extremely tight and stretched pace of work, however, our previous experience and expertise of our staff ensured that we fully accomplished this extremely important order.”* – commented **Gábor Zsámboki, CEO of ANY Security Printing Company PLC.**
