

## **ANY Security Printing Company launches start-up incubation programme**

October 5, 2021. **ANY Security Printing Company PLC launches a start-up incubation programme called ANYPartners, which can help start-ups focusing on digitalization to international markets with an investment of up to HUF 100 million.**

The aim of the ANYPartners start-up incubation programme is to enable the Company to bring new ideas based on digitalization into the innovation activities of ANY and thus into international markets, within a legally regulated framework, from both the academic and start-up spheres. The Company's start-up programme not only provides up to HUF 100 million in investment, but also the experience of its staff and infrastructure to help the companies that apply. It also offers start-ups the opportunity to enter foreign markets through its international relations.
