

ANY contracts with Angola to supply a biometric passport issuing system

The contract between the Angolan Ministry of Interior and the ANY Security Printing Company PLC has entered into force.

ANY Security Printing Company PLC hereby informs its Shareholders that the financing agreement between the Angolan Ministry of Finance and the Hungarian EXIM Bank was signed on 31 May 2023 in Luanda, thus fulfilling the condition for the entry into force of the contract between ANY PLC and the Angolan Ministry of Interior.

Under a 10-year contract, the Company is supplying a new biometric passport issuance system solution to the Angolan Ministry of Interior and SME (Serviço de Migração e Estrangeiros), Angola's Migration and Foreigners Service. The contract is worth EUR 130 million. The system includes the deployment of biometric enrolment stations, the design and production of the passport booklet, and the setting up of the local personalisation system and related services.

A 15% deposit has been received under a contract previously signed between ANY and the Angolan Ministry of Interior. In the first phase of the project, the task is for the system to be deployed, followed by its operation, as well as the ongoing delivery of passports throughout. The remaining 85% will be paid in phases as the project milestones are completed.
